

Continuous Glucose Monitoring (CGM) Training Materials Checklist

To ensure you do not forget to bring anything, use this easy checklist for the items your certified instructor will want you to have with you at your MiniLink training:

Required:

Personal CGM and Supplies

- MiniMed Paradigm® insulin pump

- MiniLink® REAL-Time Transmitter box (with contents)
 - ✓ MiniLink Transmitter
 - ✓ MiniLink Charger (with AAA battery)
 - ✓ Sen-serter® insertion device
 - ✓ CareLink™ USB upload device

- Two glucose sensors

- Alcohol wipes

- Transparent dressing (IV3000™)

Meter and Supplies

- Blood glucose meter, test strips and lancets

- Blood glucose logbook (with at least the previous week's readings listed) or printout of blood glucose information uploaded to CareLink Personal Software

Printed Materials

- *A Practical Guide to Continuous Glucose Monitoring* (located in the cellophane envelope shipped with your MiniLink Starter Kit)

- *Paradigm® 522 and 722 Insulin Pumps User Guide* (located in your insulin pump box)

- *MiniLink™ REAL-Time Transmitter User Guide* (located in your MiniLink Transmitter box)

Other

- Glucose tablets or a snack

Additional Items (check with your trainer):

- Certificate of Completion for the *Continuous Glucose Monitoring System with MiniLink online tutorial*
