CREATE A CARELINKTM ACCOUNT QUICK REFERENCE GUIDE MINIMEDTM INSULIN PUMP SYSTEMS

$\mathsf{GETTING}\ \mathsf{STARTED}\ -\ \mathsf{CREATING}\ \mathsf{A}\ \mathsf{CARELINK}^{\mathsf{TM}}\ \mathsf{ACCOUNT}$

To use the CareLink[™] Personal Software you will need to have an account. Follow the steps below to create an account.

1 Go to: http://medtronicdiabetes.com/carelink

The accept/decline may be at the bottom of the

then be able to move to the next section.

section to open and change your decision.

consent pages. After selecting the choice you will

You have the right to revoke any of consents, at any

time. To use this option go to the Consent Agreement

2 This is the **Welcome Page**. To create an account select **create account**.

 Next you will move through the Consent Agreements.

This is a one time action. There are 8 different consents which you will need to read & accept or decline.

CareLink* SOURD 1 Const Ageneration Cons

SIGN UP STEP	Country and language Country and language are chosen au	omatically. You can change them.	
1. Consents Agreements 2. Enrollment Form	United States	~	
	English	~	
	Engina		

There are 2 primary steps to create an account. **Consent Agreements** and **Enrollment Form**.

The **create account** selection will move you through the required steps. The country and language selection is how the screens and reports will populate.

		Upload device data	
0		Oenerate reports	
0	Patient	Manage data sharing with clinic accounts View and manage case partner accounts	
		 View patient's device data via CareLink Connect 	
0	Care Partner	Receive text notifications Manage text notification settings	
	CareParties	brands out to monorable	

 ▲ Next create your Patient account. This step is needed to complete the CareLink[™] account set up. The
 Care Partner permission is also included in the consent collection.

[■] You are almost done! **(A)** You have moved to the **Enrollment Form**. This is where you will create your profile. Your profile will include a user name & password of your choice. Be sure to remember this for future use of CareLinkTM Personal Software.

NOTE: Not all areas will need to be filled in. Only sections that contain an **(*)** are required in order to move to the next screen.

- You do not have to use the **Two-Factor Authentication (B)** feature. This is an optional added security section for your account.
- Remember the scroll bar on the right indicates if there is more information below.

GETTING STARTED – CREATING A CARELINK[™] ACCOUNT

Z SUCCESS!

Enrollment is Completed. Select the Continue button to take you back to the Welcome Page.

⁸ Select **Continue** and enter the user name & password you just created.

5 The **Preference Page** contains 3 primary sections.

- Glucose
- Carbohydrates
- Report Data

In each section the default settings will already be set. However, you can personalize these settings if needed.

Take a look around and discuss these sections with your Health Care Provider to determine which settings are right for you.
