TRANSFER SETTINGS
MiniMed™ 670G Replacement Pump
Transfer Settings for the MiniMed 670G Replacement Pump

STEP 1 – Before you send your original pump back, copy your current settings onto the Insulin Pump Settings Form. If for any reason you cannot copy the settings, please contact your healthcare professional or reference your CareLink™ Personal reports.

STEP 2 – Insert a AA battery into your new pump. You can use either a lithium, alkaline or rechargeable battery.

STEP 3 – Follow the instructions found in this guide to enter the settings that you have recorded on the Insulin Pump Settings Form into your new pump. For additional information on your pump, please consult the MiniMed pump system user guide.

Note: The settings shown in this guide are for illustration purposes only — your settings may be different.

Settings Form for the MiniMed 670G insulin pump

We recommend that you record all settings on this form to refer to as you enter them into the new pump.

Programming the MiniMed 670G insulin pump

Startup Wizard

Note: The settings shown in this guide are for illustration purposes only — your settings may be different.

Once you've inserted the battery, the pump powers up and the **Startup Wizard** begins; it will guide you through setting language, time format, and current time and date.

1. Select **English**.
2. When the **Select Time Format** screen appears, select a **12 Hour** or a **24 Hour** time format.
3. When the **Enter Time** screen appears, the hour will be flashing. Press ↑ or ↓ to the correct hour and press O.
4. The minutes will be flashing. Press ↑ or ↓ to the correct minutes and press O.
5. The **AM / PM** will be flashing. Press ↑ or ↓ if needed and press O. Select **Next**.
6. When the **Enter Date** screen appears, select **Year**. Press ↑ or ↓ to the correct year and press O. Repeat this step to set up **Month** and **Day**. Select **Next**.
7. The rewinding screen will briefly appear, followed by a confirmation message. Select **OK**.

### Setting Max Basal

Note: The settings shown in this guide are for illustration purposes only — your settings may be different.

**Menu > Options > Delivery Settings**

1. Select **Max Basal/Bolus** and press O.
2. Select **Max Basal**. A confirmation message appears. Select **Continue**.
3. Select **Max Basal** to enter the **U/hr** amount. Use ↑ and ↓ to set the **Max Basal** amount. Press O.
4. Select **Save**.

### Setting Max Bolus

Note: The settings shown in this guide are for illustration purposes only — your settings may be different.

**Menu > Options > Delivery Settings**

1. Select **Max Basal/Bolus** and press O.
2. Select **Max Bolus**. A confirmation message appears. Select **Continue**.
3. Select **Max Bolus** to enter the **U/hr** amount. Use ↑ and ↓ to set the **Max Bolus** amount. Press O.
4. Select **Save**.

### Setting a Basal Pattern

Note: The pump is intended to be used with a basal pattern. The basal pattern must be manually entered and saved into the pump. There will be no reminder message to program basal rates. Consult a healthcare professional to determine what basal pattern is needed. For more information about basal patterns, consult the MiniMed 670G System User Guide.

Note: The settings shown in this guide are for illustration purposes only — your settings may be different.
Menu > Basal > Delivery Settings > Basal Pattern Setup

1. Select Basal 1.
2. Select Options, then select Edit.
3. Press O to enter End time. Press O to leave the end time at 12:00A. If you are setting multiple rates use ▲ or ▼ to change the end time and press O.
4. Press ▲ to enter U/hr and press O.
5. Continue adding end times and basal rates as needed. The end time for your last rate must be 12:00A.
6. The Done option appears only when the last End time in your basal pattern is set to 12:00A. Select Done after all settings are entered to go to the next screen.

   Note: Your basal rates have not yet been saved.

7. A screen appears that lets you review your basal pattern. Press ▼ to review all the settings. If you need to make any changes, press ▲ to return to the edit screen.

   Note: If you press ▲ to return to the edit screen without saving, your changes will not be saved. After making any changes on the edit screen, select Done to return to the review screen.

8. Select Save. If you do not select Save, your changes are not saved.

   CAUTION: If you have not pressed Save after settings are entered and the screen goes dark, the entered settings will not be saved.

Turn Bolus Wizard On and Setup

   Note: The settings shown in this guide are for illustration purposes only — your settings may be different.
1. Select Bolus Wizard to turn feature On.
2. Press ✔️ to see the rest of the message then select Next.
3. Review the description of Carb Ratio and select Next.
4. Press O to enter end time. Press O again to leave the end time at 12:00A. If you are setting multiple carb ratios use ✔️ or ✔️ to change the end time, then press O.
5. Press ✔️ or ✔️ to enter g/U then press O. Continue adding end times and carb ratios as needed.
6. Select Next when done.
7. Review the description of Insulin Sensitivity Factor and select Next.
8. Press O to enter end time. Press O again to leave the end time at 12:00A. If you are setting multiple insulin sensitivity factors, use ✔️ or ✔️ to change the end time, then press O.
9. Press ✔️ or ✔️ to enter mg/dL per U, then press O. Continue adding end times and insulin sensitivity factors as needed.
10. Select Next when done.
11. Review the description of BG Target and select Next.
12. Press O to enter end time. Press O again to leave the end time at 12:00A. If you are setting multiple BG targets, use ✔️ or ✔️ to change the end time, then press O.
13. Press ✔️ or ✔️ to enter Lo and then press O.
14. Press ✔️ or ✔️ to enter Hi and then press O. Continue adding end times and BG targets as needed.
15. Select Next when done.
16. Review the description of Active Insulin Time and select Next.
17. Press O to enter duration time.
18. Press ✔️ or ✔️ to enter hr then press O.
19. Select Save. The Bolus Wizard setup is now complete.

Turn Sensor On

Note: The settings shown in this guide are for illustration purposes only — your settings may be different.
Programming High Settings

Note: The settings shown in this guide are for illustration purposes only — your settings may be different.

Menu > Options > SmartGuard

1. Select High Setup.
2. Press \( O \) on the time segment. Press \( O \) again to leave the End time at 12:00A. If setting multiple time segments, press \( ^{\uparrow} \) to enter end time of first segment, and press \( O \).
3. Press \( ^{\downarrow} \) or \( ^{\uparrow} \) to set Hi limit and press \( O \). Press \( O \) to continue.
4. Select each feature you wish to turn on. If a feature is on, select it again to turn it back off. When finished, select Next.
5. Enter the next End time and repeat steps to enter limit and alerts, or if finished, select Done.
6. Verify that settings are correct and select Save.
7. If snooze time needs to be changed, press \( \rightarrow \) to Snooze and press \( O \). Select High Snooze. Press \( ^{\downarrow} \) or \( ^{\uparrow} \) to the correct time and press \( O \). Select Save. Your High Setup is now complete.

Programming Low Settings

Note: The settings shown in this guide are for illustration purposes only — your settings may be different.

Menu > Options > SmartGuard

1. Select Low Setup.
2. Press \( O \) on the time segment. Press \( O \) again to leave the End time at 12:00A. If setting multiple time segments, press \( ^{\uparrow} \) to enter end time of first segment, and press \( O \).
3. Press \( ^{\downarrow} \) or \( ^{\uparrow} \) to set Lo limit and press \( O \). Press \( O \) to continue.
4. Select each feature you wish to turn on. If a feature is on, select it again to turn it back off. When finished, select Next.
5. Enter the next End time and repeat steps to enter limit and alerts, or if finished, select Done.
6. Verify that settings are correct and select Save.
7. If snooze time needs to be changed, press \( \rightarrow \) to Snooze and press \( O \). Select Low Snooze. Press \( ^{\downarrow} \) or \( ^{\uparrow} \) to the correct time and press \( O \). Select Save. Your Low Setup is now complete.

Go to Connect the Transmitter, page 7 to continue programming sensor settings.

Turn Auto Mode On

Note: The settings shown in this guide are for illustration purposes only — your settings may be different.

Menu > Options > SmartGuard

1. Select Auto Mode.
2. Select Auto Mode again to turn Auto Mode On.
3. Check the screen to make sure that Auto Mode is set to On. Select Save.
Note: The SmartGuard Auto Mode warm-up period begins the midnight after the pump starts delivering insulin. If you turn Auto Mode on before the warm up is complete, you may receive an alert at midnight to Enter a BG for Auto Mode. You may want to wait until day 3 of your pump wear to avoid this alert at midnight.

Connect the Transmitter

Note: The settings shown in this guide are for illustration purposes only — your settings may be different.

Menu > Options > Utilities > Device Options > Connect Device > Auto Connect

1. Press \( < > \) to read the rest of the message and then press \( > \) and select Continue.
2. Make sure the transmitter is fully charged and remove it from the charger.
3. Select Search on the pump.
4. Confirm that the serial number (SN) on the pump screen matches the serial number on the transmitter.
5. If they match, select Confirm.

The Manage Devices screen will appear with the serial number. Your transmitter and pump are now connected.

Note: Please take some time to review ALL your entries and ensure they have been correctly saved.
